

How do I use the Contact Website?

From the Website Home Page

Properties that meet your criteria will be displayed on the home page with abbreviated information. You will be able to sort them into folders for Favorites or Possibilities. To view the categories, click on the appropriate tab at the top of the home page. The Agent Recommendations tab contains properties I may recommend for a closer look. The Additional Properties tab contains properties that do not exactly meet your criteria but may be of interest to you.

Use the grey toolbar to sort the properties or to view them on a map. Click on the "Next" button underneath the property photo to see all images. Clicking on the "Add Notes" button will allow you to comment on the property and save it into one of the folders mentioned above. Clicking on the "Details" button will provide additional information on the property.

FIRST MULTIPLE LISTING SERVICE

What is the Contact Website?

The Contact Website is a unique personalized website created especially for you. You and I can enter the website at any time to view new or changed listings that meet your criteria. You will be able to easily manage the properties on your website by filing them into categories such as likes, possibilities, and dislikes. You will be able to share notes on any property with me, and in turn I will also have the ability to add notes, flags, or recommend additional listings.

The properties on your website will be updated as there are changes in availability or price. Think of your Contact Website as your own personal digital filing drawer where you can house and review all of the information related to your property search. Be sure to take advantage of this easy to use and time saving tool!
